I denied Buchmeyer permission to go down in the cellar to see what alled the gas meter. He went anyway, slipping down the rear door.

"Then the gas flickered out. I feared the store was darkened for a purpose. Just then I heard Miss Elckmeyer struggling with one of the men and heard the police shooting after him as he ran."

"It was dark when I saw a man standing on the cellar door," said Miss Elckmeyer.

Frank H. Peyton Confessed the Killing of a Wealthy Merchant of Sioux City, But His Story Has Not Proved True.

Nolle prosequies were entered in the robery cases against him here and he was surradited and taken to Iowa to be tried on the more serious charge of murder. In such language the wife of Thomas G. Barker, who shot the Rev. M OST people think that catarrh is a disease confined to the head and nose. Nothing is farther from the truth. It may be that the nose and throat is the oftenest affected by catarrh, but if this is so it is so only because these parts are more exposed to the vicissitude of the climate than the other parts of the body.

Every organ, every duct, every cavity of the human body is liable to catarrh. This is true winter and summer. Catarrh causes many cases of chronic disease, where the victim has not the slightest suspicion that catarrh has anything to do with it.

Special to the Post-Dispatch.
TOPEKA, Kan., Feb. 6.—As cool as a veteran commander on the field of battle Mrs. Carrie Nation conducts her saloon smashing crusade. In the smashing of the Senate saloon yesterday, in which a great quantity of liquor was wasted, bar fixtures and mirrors worth \$1500 demolished, the leader did most of the work.

As soon as Mrs. Nation reached the door

As soon as Mrs. Nation reached the door of the Senate saloon she ran inside as fast as she could. A negro had just opened the place and was sweeping out. When he saw Mrs. Nation and the women coming he uttered a howl like an Indian and jumped at Mrs. Nation. He selzed her hatchet. In the struggle the hatchet struck her on the forehead and hurt her, but she pald no attention to the blow. Disarmed of her weapon by the negro, she snatched a hatchet from one of the two remaining women who were armed and ran through the oliliard room into the bar.

The negro pulled out a revolver from his pocket and fired a shot into the ceiling. He hoped it might frighten the other women. It had no effect on them. They followed Mrs. Nation into the barroom and without the least sign of excitement began to demoilsh everything of value in the place.

Mrs. Nation looked critically around, then went up behind the bar and splintered three handsome plate glass mirrors. Then she hammered holes through the refrigerator, took bottles out from under the bar and broke them and set to work on the beer kegs. The first beer keg she attacked seemed too stout for her. She hammered at it for several minutes, but it resisted every blow. Then she stopped a minute, said a little prayer, and hit it a vicious blow with the blade of her hatchet. A stave of the keg was broken, there was a hissing sound, and a foamy stream of beer flew all over Mrs. Nation's face, hair and dress. She held her hands out to let the beer drip off of her, blinked her eyes to get the beer out of them and laughed loud.

But she did not delay long. Time was precious. She hacked the cherry wood bar, she knocked the bungs out of whisky barrels and the heads off the liquor bottles. The three women were just as industrious as she. One of the women, an old woman named Mrs. White, was like a bull in a china shop. She broke something overy time she took a step. Meanwhile the negro had left the women to their work of destruction and had fied for help. A policeman, a big, good natured man of the Senate saloon she ran inside as fast

the 30 pictures of Richard Croker hung on the walls of a city department in a big sky scraper were seen to be swaying.

The question arose whether the pictures were moved by the vibration of the building or by draughts of wind. There was an argument between two builders.

"I tell you this building is swaying in the wind," said one.

"You are swaying on your legs," retorted the other.

The matter was finally submitted to a test. A room in which was a large picture was noticed. In less than a minute the picture was swaying to the right and left about two inches.

Here Mrs. Barker was not only a regular attendant, but she was active in the Sunday-school and in all the parish work of charity and benevolence. Here husband, too, was a member of the parish, and, while not so active as Mrs. Barker, he was in thorough sympathy with her in all that she did for the little flock of Holy Trinity mission.

His business kept him in New Yerk until late in the afternoon, but after his return home he listened in the evening to her enthusiastic accounts of the chapel's work and entered into the spirit of her religious zeal with enthusiastic sympathy.

In charge of the Holy Trinity mission was the Rev. John A. Keller. He has been the shepherd of the flock since 18%, and no young clergyman of the diocese has held a higher place in the esteem of his bishop or in the reverent regard and affection of the people to whom he has administered the holy rites of the church for sixteen years, holy rites them, baptizing their children and burying their children and burying their dead.

"I know very little about the features of

the Senate bill" said the governor to the Post-Dispatch, "but I shall look it over carefully."

The bill before the governor does not conform to the declaration contained in his inaugural address to the effect that only "corporations enjoying practically exclusive privileges," by which are meant public and quasi-public corporations, should be

and quasi-public corporations, should be taxed.

Representatives Hawkins of Marion and Woolfolk of Lincoln constitute a subcommittee of the House ways and means committee to confer with Senators Martin and Clay relative to their franchise bill. It is believed that some few changes will be made, but as the general terms are in accordance with Judge Hawkins' ideas there is no reason to believe the amendments will be of a material nature.

"I am perfectly satisfied," said Col. Will-lam Phelps, speaking of the franchise tax bill to the Post-Dispatch today, "to have the bill gotten up by the Senate ways and means committee passed. I think it eminently just because it seeks to tax all corporations.

What is required of the Legislature is a law clearly defining the property to be taxed and the method of assessment. The duty of assessors and the board of equalization will be plain.

All the old veterans may rest assured that the American flag will fly all over St. Louis when they come to the World's Fair, to which they are cordially invited.

IMPUDENT LEGISLATION.

There is much attempted legislation that can be classed as impudent. Perhaps the most glaring example is the bill that is being pushed by a Minnesota legislator to regulate marriage in its minutest detail. Among other things, this proposed law

would prohibit women getting married after 45 years of age.

The author of this bill says his object is to improve the race. This, of course, is everybody's business. It is also nobody's business in the sense that no one man has the right to set himself up as a judge and censor and impose conditions that may appear to him to be necessary for the improvement of

Of course the bill will be overwhelmed in a flood of protest and ridicule. If the time ever comes when the human race can be "improved" by legislation that interferes at every point with its most private and sacred instincts, it will not be worth improving.

CALL THE CONVENTION.

Several proposed constitutional amendments are now before the Legislature, the need of which is acknowledged on all hands. They will probably be voted on by the people a. the next election in November, 1902. But why be content with patchwork when all interests unite

in desiring a new constitution? The progress of Kansas City and St. Louis is arrested by constitutional restrictions which have been outgrown. Municipal affairs in both cities have fallen into disorder because measures imperatively required by modern conditions are either forbidden or without constitutional warrant. In St. Louis, particularly, a more liberal policy is absolutely necessary. There are some American wives who would not sell their

There are other conditions which need the light of science on how to conserve bodily energy. Perhaps the most important, to the city man, is the daily street car crush and grind. Is the city man wise, after a day's work and worry, to start home on an empty stomach and subject himself to this torture, or should he fortify himself beforehand and in what way? With a mip, or a sandwich, or both?

Then there is the proper food for the man who is in love—what should it be? The woman in love is supposed to require no food? And what light can science east on boarding house diet? All these are questions which we shall expect the twentieth century to answer.

PROTECT THE BALLOT BOX.

In instructing the grandjury to investigate election frauds and indict all persons of whose guilt sufficient evidence may be obtained, Judge Wood has taken up the most menacing His senses are dulled and his nerves are of the vicious conditions which have been brought upon St. Louis by partisan government.

The report of the late grandjury was unsatisfactory. It gave the impressions and conclusions of the members, but there was no indictment of the guilty. There was no evi-

dence of frauds made public.

The only way to insure reform and properly inform the public is to bring out the proof of fraud in court and punish those guilty of election rascality. The conviction of one rasdence of his guilt is worth a volume of charges, impressions

Honest elections are the foundation of good government Good government can never be secured through election frauds, nor can it long survive them. They open the way to the triumph of the vilest elements in politics.

Does she get sympathy? Oh, yes, she gets sympathy for awhile, but she acts so outrageously that everybody keeps out of her way as much as possible. After a while they begin to think she's malicious and could do better if she tried real hard.

She has turned her best friends against her.

This woman is sick with about the most discouraging sickness women can have, and there is a person who understands her case better than any one else in the world. That person is Mrs. Pinkham. The nervousness comes from some derangement of the feminine organs, and is constantly fed and made worse by the constantly developing disease. Female diseases never get better of themselves. They must have proper treatment. Ordinary physicians do not know how to grapple with these diseases of women. Out of the hundreds of thousands of women Mrs. Pinkham has cured, not one in five hundred tried her advice or her medicine until they had exhausted the skill of their own physician, sometimes of several physicians.

Mrs. Pinkham's address is Lynn, Mass. Her advice is prompt and free to all suffering women.

You may not know that your nervousness comes from female troubles. Your doctor may not know it. He may tell you it does not; but does he cure you? Does he help you any? Mrs. Pinkham will tell you the truth about yourself, and you'll believe her. Don't throw your life's happiness away and make yourself unlovable, when a little diligent heed to Mrs. Pinknam's advice will drive away your nervousness by removing the cause of your trouble. Read carefully the letters from women Mrs. Pinkham

After thirty years of success in curing women's ills, can you not believe it worth while to test the virtues of

Heartfelt Stories from Cured Women.

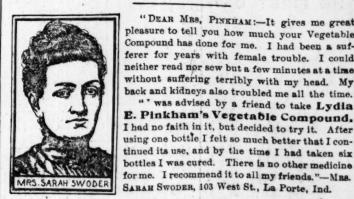

"DEAR MRS. PINKHAM:-I feel it my duty to write and tell you of the benefit I have received from your wonderful remedies.

"Before taking your Vegetable Compound I was a misery to myself and every one around me. I never laid my aching head upon my pillow without wishing I could die. "I suffered terrible pain in my back, head,

and right side, was very nervous, would cry for hours. Menses would appear sometimes in two weeks, then again not for three and four months. I was so tired and weak, could not sleep nights, rp pains would dart through my heart that would almost cause me to fall. I was so poor and white that my folks thought I was going to die. My mother coaxed me to try Lydia E. Pinkham's Vegetable Compound. I had no faith in it, but to please her I did so. The first bottle helped me so much that I con-

"DEAR MRS, PINKHAM:-It gives me great pleasure to tell you how much your Vegetable Compound has done for me. I had been a sufferer for years with female trouble. I could neither read nor sew but a few minutes at a time without suffering terribly with my head. My back and kidneys also troubled me all the time. " was advised by a friend to take Lydia E. Pinkham's Vegetable Compound. I had no faith in it, but decided to try it. After using one bottle I felt so much better that I continued its use, and by the time I had taken six bottles I was cured. There is no other medicine

"DEAR MRS. PINKHAM:-I am very grateful to you for your kindness and the interest you have taken in me, and truly believe your medicines and advice are worth more to a woman than all the doctors in the world. For years I had female troubles and did nothing for them. Of course, I

And advice are worth more to a woman than all the doctors in the world.

For years I had female troubles and did nothing for them. Of course, I became no better and finally broke down entirely. My troubles began with inflammation and hemorrhages from the kidneys, then inflammation congestion and falling of the womb, and inflammation of ovaries. I underwent local treatment every day for some time; then after nearly two months the doctor gave me permission to go back to work. I went back, but in less than a week was compelled to give up and go to bed. On breaking down the second time, I decided to let doctors and their medicine alone and try your remedies. Before the first bottle was gone I felt the effects of it. Three bottles of the Compound and a package of the Sanative Wash did me more good than all the doctors' treatments and medicine. The first remark that greets me now when I go that the cause of my health. I have gained twelve pounds during the last two months and am better in every way. Thanks for your kind attention and advice."—Mrs. E. J. Gooden, Ackley, Iowa.

Blamer to let him be a sailor. The officer questioned him a while and then told him that all he would have to do would be to have someone appointed his guardian and come again, bringing his guardian with him.

A half hour later the boy called on Probate Clerk Koenig and asked what he would have to do to have a guardian appointed. Mr. Koenig explained that the most neces sary thing was the bond. The boy then hurried away, saying he would get his brother-in-law, Joseph Frankel of 1668 Singleton street, to be his guardian. He said he would bring frankel to the Probate Court during the afternoon.

Young Higbee is an ambitious looking youngster. He told the Post-Dispatch he had had a hard time since his mother died last May keeping in work enough to supply his wants. He said the picture in the Post-Dispatch appealed to him and he believed a sailor's life would just suit him. "I can begin as an apprentice and learn all about it. "he said. "That's what Lieut. Blamer told me."

Aetna Life Building, Hartford, Conn.

BOROUGH OF BROOKLYN, January 30, 1961.

THE GUARANTEE TRUST COMPANY OF NEW YORK and

Messrs. HARVEY FISK & SONS. The street-railway system of the Nassau Electric Railroad Company covers a very wide territory

in the most thickly populated section of Brooklyn, with extensions into the most rapidly developing districts, and connects with all the principal ferries and with the Brooklyn Bridge, over which it operates by contract. The mileage of the system (measured as single track) is as follows: MILEAGE.

128.21 miles of track owned by the company.

6.32 miles owned by the Coney Island and Gravesend Railway
Company.

13.85 miles owned by the Sea Beach Railway Company.

The entire stock of these two companies is owned by the Nassau Company. GUARANTY BY BROOKLYN HEIGHTS RAILROAD COMPANY.

In April, 1899, all the railroads, property and franchises of the Nassau Electric Railroad Company were leased to the Brooklyn Heighths Railroad Company for nine hundred and ninety-nine years, under a lease by the terms of which the Brooklyn Heights Railroad Company guarantees the pagment of the principal and interest of all the bonds secured by mortgages upon he leased property, including the Consolidated Mortgage Bonds. All of the common stock of the Nassau Electric Railroad Company and all of its preferred stock, excepting 3448,000 par value, is owned by the Brooklyn Rapid Transit Company. The Brooklyn Heights Railroad Company, the operating company for the Brooklyn Rapid Transit Company, controls by léase or ownership all of the pupperties embraced in that Company's system.

PHYSICAL CONDITION.

The track, equipment, power-houses, and other property of the Nassau Electric Railroad Company, are, as the result of large expenditures since the creation of the Consolidated Mortgage, in thoroughly first-elass condition. The entire system is equipped with electrical apparatus of the most approved type.

Miss Kennedy declined to discuss her brother's death. She said her parents, who are quite aged, had been told that their son had died of pneumonia.

Mr. J. B. Talbert, Lock Box 245, Winona, Miss., says: "Six years ago my leg from the knee to the foot was one solid sore. Several physicians treated me and I made two trips to Hot Springs, but found no relief. I was induced to try S. S. and it made a complete cure. I have been a perfectly well man ever since."
